

## Buffer Solution pH 9.2 ( $\pm 0.02$ )

Product Name  
Buffer solution  
pH 9.2 ( $\pm 0.02$ )

Product Code  
ML063-500ML

Kit Packing  
500 ml

**Introduction:** Buffer Solution pH 9.2 ( $\pm 0.02$ ) is used as a standard buffer in Molecular Biology. It is mainly used as a calibration buffer for the pH meters. A buffer solution is one which resists changes in pH when small quantities of an acid or an alkali are added to it. An alkaline buffer solution is simply one which has a pH more than 7. Alkaline buffer solutions are usually made from a weak base and one of its salts.

**Description:** The pH of a solution is the most common routinely performed measurement in a molecular biology laboratory. As the pH of any solution affects all chemical and biochemical reactions, it is very important to have a reliable and accurate measurement of it. The pH-meters are used to measure the pH of any solution. It functions by measuring the voltage developed between two electrodes immersed in the sample and compare that value to a calibration derived from the same electrode pair and known standards. These standard buffer solutions must be accurate and reliable and are used for pH meter calibration. A properly calibrated pH meter gives more precise and accurate readings.

**Application:** Buffer Solution pH 9.2 ( $\pm 0.02$ ) is used as a standard buffer for the calibration of pH meters. This pH buffer solution calibrates the pH meter to a pH of 9.2 at 25°C.

### Properties:

Appearance	: Colorless solution
Clarity	: Clear and free of particles
pH	: $9.2 \pm 0.02$
DNase & RNase	: None detected
Bioburden	: None detected
Suitability test	: This solution has been tested and is suitable for use as a standard buffer for pH meter calibration

**Storage conditions:** The Buffer solution pH 9.2 ( $\pm 0.02$ ) has to be stored at 2 - 8 °C.

### Technical Assistance

At HiMedia we pride ourselves on the quality and availability of our technical support. For any kind of technical assistance, mail at [mb@himedialabs.com](mailto:mb@himedialabs.com).
