Product Information

Product description :

S.S. Sterility Test Manifold System with 3 stations is an integrated filtration system having a prime application in filtering multiple samples off one vacuum source. It is without filter holders. It is perfectly supported on stainless steel manifold with rugged side supports which keeps the system rigid and firm even while fully loaded.

Applications:

- Sterility testing of antibiotics and pharmaceuticals.
- Vacuum filtration of biomass, waste water and particulate contamination analysis.
- Microbiological analysis of retained particles.
- Yeast and mold detection.
- Photoresists
- Vacuum filtration of solvents and aqueous solutions.

Specifications:
